MINNESOTA BULLETIN NO 260-7-9

SUBJECT: INF - 2007 INVASIVE SPECIES CALENDAR

Purpose. To distribute the 2007 Invasive Species Calendar.

Expiration Date. September 30, 2007

Minnesota NRCS offices will be receiving, under separate cover, the 2007 Invasive Species Calendar. The 2007 calendar is a collaborative effort with Minnesota Invasive Species Advisory Council (MISAC) that is intended to raise awareness of invasive species, their harmful impacts, provide additional sources of information, and encourage reports of priority invasive species.

MISAC website is a good resource to learn more about invasive species, regulations, informational products, related links, and other aspects of the invasive species problem. I encourage you to visit the site at: www.mda.state.mn.us/misac/. There are electronic versions of previous calendars also available in the Products Section of this Website.

I hope you find the 2007 Invasive Species Calendar informative and will share the information with others in your office.

For additional information or to provide comments, contact Jay Rendall (Co-Chair of MISAC) at (651) 259-5131 or via email at jay.rendall@dnr.state.mn.us.
