

Conservation Security Program Water Quality Certification

Natural Resources Conservation Service
United States Department of Agriculture

Minnesota, 2006

I have reviewed and completed the CROPLAND questions 1 to 18 in the CSP Self-Assessment and have provided a record of appropriate soil and/or animal waste tests.

I understand that I must retain the following documentation and that this information may be requested at any point in time for verification:

- ◆ All records of nutrient and pesticide management, irrigation water management and waste utilization for the past 2 years on my offered acres.
- ◆ Most recent soil tests from a Minnesota Department of Agriculture certified lab for the offered acres.
- ◆ Other documentation that verifies my eligibility and supporting documentation as indicated in the Water Quality Assessment Tool, which will be used during the interview process to determine if my offered acres meet the minimum water quality eligibility requirements.
- ◆ Other documentation that verifies my answers to the questions listed in the CSP Self-Assessment Workbook.

I have reviewed and understand the minimum water quality eligibility requirements and I certify that I meet all requirements on the offered fields. I understand that at any point in time I may be asked to provide the above records for verification purposes.
