These areas would have the same concerns as listed above.
- Prioritize and weight each local resource concern for the district. Weight must be between 1 and 10:

Factor	Resource Priority	Weight
A1. Erosion Control	5	5

G Grazing System	9	3
H Forest Mgt.	10	1
Additional Local*	1	10

* If the additional local concern is scored, describe the concern here and how points will be scored. Include any geographic priorities. Any areas within 1000' of the above listed waters and the first level tributary up to the next water body will score these points for the following practices: 351, 393, 590, 725, 472 (in riparian areas), 332, 386, 449, 595, 580, 752, 366, 360, 317, 634, 784, or 657.

- Attach the scoring worksheet as recommended for the district.
- List any recommended practices to be deleted from the state Conservation Practice Payment Document. No practices have been removed from the state conservation practice payment document.

The local EQIP program description, cost-share docket changes, and ranking worksheet must be reviewed and approved by the State Conservationist before any EQIP contract is approved and signed.

This document serves as the Local Work Group recommendation for FY 05 EQIP. Attached is a roster of participation in the Local Work Group.
