

**McGregor Township Housing Project:**

The McGregor Township Board of Supervisors approached the RC&D Council for assistance to develop a funding application to repair and rehabilitate substandard housing in the township. Many of the township's residents meet low and moderate-income guidelines. The RC&D Council provided the assistance to prepare a grant application. The Aitkin Soil and Water Conservation District provided local support. A grant to finance the project was provided by the Minnesota Department of Trade and Economic Development. Lakes and Pines, a local CAC is administering the grant. 15 homes owned by township residents with low and moderate incomes are being rehabilitated.
