

CONSERVATION RESERVE NOTE #111
September 15, 2003

This note updates our Conservation Reserve Notes and Index. Current CRP notes are 72, 74, 81, 82, 83, 88, 89,93 –102, and 104 - 111. All other notes not included on this list are cancelled. The seeding mixtures and T&E lists for previous sign up periods that were transmitted with some of the cancelled notes are to be kept as references until contracts from those sign up periods have expired.

An updated index is attached. This index can then be updated locally as new notes are added. The index and most of these CRP notes are available on the Minnesota NRCS web site.
