**CRP NOTE # 81**  
**March 10, 1998**

This note transmits two technical articles relative to the establishment of native grasses, entitled "Tips for Drilling Chaffy Seed: Attention to detail Essential" and "Sculptured Seeding: An Ecological Approach to Revegetation". The articles cover topics such as planning considerations, site preparation, seed mixes, seeding and more. The information is timely and should help when planning native grass seedings in CRP as well as other projects and programs.
